Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year, beginning Jan. 1, 1915, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of financial year.

ARTICLE 37. In what manner will the town collect the taxes and at what time shall they be paid into the treasury.

Voted, That the taxes be collected and paid the same as last year.

ARTICLE 38. What compensation will the town allow the Collector of Taxes for the current year?

Voted, That the compensation of the Collector of Taxes be $800, the same as last year.

ARTICLE 39. To hear the report of any committee heretofore chosen or appointed and act thereon.

Voted, That the question of a Central Fire Station, location and building, be held over for further consideration until next Annual Town Meeting, and that the present committee be enlarged to include the Selectmen, Chief of Fire Department and two citizens to be appointed by the Selectmen.

ARTICLE 40. To see if the town will vote to revoke its acceptance or the provisions of Section 336 of Chapter 11 of the revised laws, relative to the election of Highway Surveyor, said provisions having been accepted at a special meeting held April 10, 1908, or act on anything relating thereto?

Voted, That this Article be indefinitely postponed.

ARTICLE 41. Will the town raise and appropriate the sum of $188.07 (which represents the unexpended balance of the sum raised in 1914, for the maintenance of the Alewife Fisheries) for the maintenance of said fisheries for 1915, or act on anything relating thereto?

Voted, That this article be indefinitely postponed.

Article 42. What sum will the town raise and appropriate for mowing bushes and building fences at Town Farm.

Voted, That the sum of $1,000 be raised and appropriated for above purposes.

Article 43. Oliver H. Howe and others. Will the town accept Chapter 635, of the Acts of 1912, entitled "An Act Relative to Tenement Houses in Towns," or act on anything relating thereto.

Voted, That a committee of three be appointed to copy the above act and present it at the next Annual Meeting as a local law. Dr. Oliver H. Howe, August F. B. Petersen and John H. Winters. Voted by an unanimous vote.

Article 44. Harold T. Barnes and others. Will the town raise and appropriate a sufficient sum of money to construct a sidewalk on North Main Street, beginning where the present sidewalk ends and continuing to the junction of said North Main Street and Forest Avenue or act on anything relating thereto?

Voted, That this article be indefinitely postponed.

Article 45. Manuel A. Grassie and others. Will the town solicit or consider bids for town work from persons other than citizens of the town, or act on anything relating thereto.

Voted, That this article be indefinitely postponed.

Article 46. Nicholas Simeone and others. Will the town accept Chapter 423, of the Acts of the Massachusetts Legislature of 1909 and amendments thereto, providing substantially that "The Selectmen of Towns may grant licenses to reputable persons who on secular days are retail dealers of ice cream, confectionery, soda water and fruit to keep open places of business on the Lord's Day for the sale of ice cream, confectionery, soda water and fruit, or act on anything relating thereto.

Voted, To accept the above act.

Article 47. Manuel A. Grassie and others. Will the town raise and appropriate a sum of money sufficient to install a fire alarm box on Pleasant Street, between the residences of William St. John and John Keating, or act on anything relating thereto.

Voted, That the sum of $125.00 be raised and appropriated for the above purpose.

Article 48. E. C. Hovey, Jr., and others. Will the town raise and appropriate the sum of $50.00 to provide refuse barrels to be placed at various places throughout the town under the supervision of the Highway Surveyor, or act on anything relating thereto?

Voted, That $50.00 be raised and appropriated for above purpose.

Article 49. George F. Sargent and others. Will the town raise and appropriate the sum of $18.00 for the purpose of placing an electric light on Church street, opposite the residence of William P. Arnold?

Voted, That the sum of $18.00 be raised and appropriated for above purpose.

Article 50. George F. Sargent, Jr., and others. Will the town raise and appropriate a sufficient sum of money to place a two hundred and fifty candle-power electric light at the junction of Beechwood and Doane streets?

Voted, That the sum of $61.20 be raised and appropriated for the above purpose.

Article 51. Louis J. Morris and others. Will the town instruct the Selectmen to install and maintain an electric light on the southeast side of Norfolk Road?

Voted in the affirmative.

Article 52. Darius W. Gilbert and others. Will the town raise and appropriate the sum of eight thousand dollars (8,000.00) for the purpose of installing a new flush sanitary system together

with other necessary changes in the building of the Osgood School? Said amount to cover the following named items, viz.: The installation of a new flush sanitary system in the basement, to install a flush and sanitary system and toilet on the first floor and provide a room for the teachers and parents; said room to contain lockers, for safety to re-wire the whole building and install new electric light fixtures where necessary, to alter and rebuild the rear entrance and entrance to the basement, to re-surface the concrete floor in the basement and provide more windows for the same, to do such carpenter work and painting as are necessary and furnish new front doors with improved fasteners that can easily be opened by a small child, or act on anything relative thereto?

Voted, By a unanimous vote that the sum of eight thousand dollars ($8,000.00) be raised and appropriated for the above purpose.

Article 53. Darius W. Gilbert and others. Will the town raise and appropriate the sum of five hundred dollars for the purpose of establishing and maintaining a night school to be held in the Osgood School building during the current year, or act on anything relating thereto.

Votod, That $500.00 be raised and appropriated for the above purpose.

Articee 54. George Jason, Jr., and others. Will the town designate Labor Day each year as Cohasset Day, or act on anything relating thereto.

Voted, That the first Monday in September, 1915, be designated as Old Home Day.

Article 55. What sum of money will the town raise and appropriate for recreation purposes, including the celebration of Independence Day and Cohasset Old Home Day.

Voted, That the sum of $500.00 be raised and appropriated for the above purpose.

Article 56. Elmer E. Bates and others. Will the town raise and appropriate the sum of four hundred and fifty dollars to move from its present location on Doane Street the hook and ladder building to some more convenient location on Beechwood Street, and vote to donate to the Beechwood Cemetery Association the piece of land upon which it is now located, or act on anything relating thereto.

Voted, That a committee of five be appointed by the Moderator to look into this article and report at the next Annual Town Meeting. Elmer E. Bates, Samuel F. Pratt, Ira Bates, George F. Sargent, Henry E. Brennock.

Article 57. What action will the town take regarding the portion of Straits Pond lying northwesterly of Atlantic Avenue in the town of Hull.

Voted, That the Selectmen be instructed to deed to the town of Hull for the sum of one dollar the section of Straits Pond and land rights lying northwesterly of Atlantic Avenue in the town of Hull.

Voted, That the thanks of this meeting be extended to the Moderaror for the able and impartial manner in which he has presided over it.

Voted, That this meeting be adjourned.

## SPECIAL TOWN MEETING, MAY 24, 1915

At a special meeting of the inhabitants of the Town of Cohasset, held at eight o'clock this evening, the following articles contained in the warrant were enacted upon as follows: —

ARTICLE 1. To choose a Moderator to preside in said meeting.

## CONVENTION OF TOWN CLERKS

### *Third Plymouth Representative District*

On the twelfth day of November, A. D., 1915, the Town Clerks of Hingham, Cohasset and Hull, said towns comprising the Third Plymouth Representative District assembled at the office of the Town Clerk in Hingham at twelve o'clock noon, for the purpose of examining the returns of votes given in and determining who had been elected to represent said District in the General Court to be holden at Boston on the first Wednesday in January 1916, proceeded to canvass said returns and found the ballots given in for the several candidates to be as follows:

| | Hingham | Cohasset | Hull | Total |
|---|---|---|---|---|
| Brewer, . . . . | 450 | 255 | 74 | 779 |
| Souther,. . . . . | 495 | 294 | 199 | 988 |
| Thomas G. Leigh, . . | 1 | 0 | 0 | 1 |
| Blanks, . . . | 38 | 17 | 8 | 63 |
| | 984 | 566 | 281 | 1,831 |

It appearing that William O. Souther, Jr., of Cohasset had received a plurality of the votes given in, a certificate of election was issued to him.

FRED H. MILLER,
*Town Clerk of Hingham.*

HARRY F. TILDEN,
*Town Clerk of Cohasset.*

JAMES JEFFREY,
*Town Clerk of Hull.*

# TOWN CLERK'S REPORT

| Total . . . | | $12,565 37 |

## Conclusion

In re " Bigelow tax assessment," so-called.

The Selectmen, acting upon advice of counsel and upon their own best judgment, returned October 14, 1915, the exact amount of protested taxes and interest paid to this town December 21, 1912, by the New England Trust Company, assignee for Albert S. Bigelow, that is, $55,186.44, less $2,400 received as a bonus. This was done in compromise of various suits growing out of this matter.

For the Town in this case, as a certain factor, can be reckoned estimated saving of interest, in not having to borrow money in anticipation of taxes while the amount was in the Treasury. This saving from December 21, 1912, to October 14, 1915, when the money was returned, at 3 per cent. (the average that the Town has paid for money since and including 1912, to date of re-payment) would be $4,662.98, or at 3½ per cent., which in the opinion of some is a fairer rate, $5,273.47.

On the other hand, as a certain factor, the attorneys' fees and costs were $3,553.56.

At the request of Mr. William O. Souther, Jr., one of the Assessors, the following is submitted, as dictated by him: "Information was obtained during the various investigations connected with this case disclosing $200,000 of taxable property owned by Mrs. A. S. Bigelow, from which the Town derived a tax of $2,800, and by evidence contained in a stenographic report, this amount was legally assessed in December, 1914, and afterwards collected."

As to any other factors which may or may not be involved in this case, the Town Accountant respectfully refers the citizens to the Board of Assessors.

EDWARD L. STEVENS,

COHASSET, Feb. 5, 1916. *Auditor and Town Accountant.*

# REPORT OF BOARD OF SELECTMEN

## FOR YEAR ENDED DECEMBER 31, 1915

The past year has been a very serious one for the Town of Cohasset from a financial standpoint, as will be shown by an examination of the financial report. The causes are many and varied, but each shows for itself in that report.

The Town Halls, both upper and lower, together with the Selectmen's room and Town Accountant's office, have been painted at a cost shown in the Accountant's report under "Town Hall," also the Town building at North Cohasset, occupied by the Postoffice and Fire Department, has been repaired.

During the past year the Selectmen have been petitioned to relocate and widen Margin street, Stockbridge street and Smith Place, also to lay out a public way on what is known as Lambert's Lane. In the case of Margin street, their report was submitted to the town and disapproved. The difficulty at Stockbridge street was overcome by removing bushes at the junction of Margin street, which obstructed the view. Smith Place was laid out and accepted by the town. Hearings were held on the question of a layout of a public way over Lambert's Lane, and in the judgment of the Board of Selectmen public convenience and necessity did not require the establishing of the way.

The Committee appointed by the town to consider the question of a new fire station have not met, for the reason that it was deemed an inopportune time to bring the matter before the town on account of the financial situation.

The Selectmen received from the family of the late George G. Crocker, the bequest of a flagpole to be placed on the Common, which was done on July 5, 1915, a full record of the exercises and ceremonies appearing in another part of this volume.

It being apparent that the light on the streets in front of the Town Hall was insufficient, the Selectmen authorized the Electric

Light & Power Co. to place a larger lamp at that point, which has remedied the difficulty.

Our attention has been repeatedly called to a dangerous obstruction of a view at the corner of South Main and Beechwood streets, on the premises of Mr. Eben S. Pratt, and by permission of Mr. Pratt the town removed the wooden slat fence and placed an open iron fence in its place which relieves the situation materially and a very fair view is obtained.

Another obstruction of view was on Nichols Road, opposite the driveway of William R. Sears, Esq., and at his request the Selectmen had the corner cut back and ledge removed, so that a fair view is now obtained and a dangerous obstruction eliminated. William R. Sears, Esq., contributed materially to the expense of this work.

The Board was served with a notice by the Land Court of a proposed registration of title to property on Margin street by Mr. Lewis A. Crossett, and the Town Counsel appeared in the interest of the town. The matter has not yet been completed.

Your Selectmen were advised by the executor under wills of the late Edward Wheelwright, his wife Isaphene Wheelwright, and his brother, Henry A. Wheelwright, that some seventy-five or eighty acres of land known as "Tippling Rock Pasture" might be offered to the town as a public park, together with a fund of $15,000 for its care and maintenance, and requested the opinion of the Selectmen as to the likelihood of the acceptance of the same by the town, and it was the unanimous opinion of the Selectmen that it would be accepted.

We would not feel that we had done our duty to the town without again calling the attention of the citizens to the necessity of deeply considering the appropriations for money to be raised at the next annual town meeting.

HARRY E. MAPES,
HERBERT L. BROWN,
WILLIAM O. SOUTHER, Jr.,

*Selectmen of Cohasset.*

# REPORT OF SELECTMEN AS COMMITTEE ON GUIDEBOARDS, 1915

During the past year new guideboards have been erected at the corner of Beechwood and Doane streets, Beechwood and Church streets, Beechwood and King streets, and Beechwood and South Main streets.

The Board desires to extend its appreciation to the Cohasset Motor Club for its interest and assistance in the above matters.

HARRY E. MAPES,
HERBERT L. BROWN,
WILLIAM O. SOUTHER, JR.,
*Selectmen of Cohasset.*

# ASSESSORS' REPORT

The Assessors of the Town of Cohasset, herewith submit their report for the year 1915.

The reason of our increased tax rate is due to increased expenditures and a loss of personal securities. In 1914 and 1915, largely due to distribution of large personal estates and depreciation of securities. In 1913 our valuation was $11,042,714,00 this amount includes the $1,935,153,00 assessed to the New England Trust Company, assignees of Albert S. Bigelow. In 1914, our valuation was $10,195,041,00 of this amount, $54,338,00 was assessed to the New England Trust Company. In 1913 and 1914, New England Trust Company's assessments were abated. The 1915 valuation is $9,620,682,00 showing a decrease of $574,359,00 from 1914.

The year 1912 our valuation was $9,505,041.00, town raised and appropriated $135,532,49. Amount available in the treasury $20,000, leaving total amount raised $115,532,49. Our State County Highway and Park Taxes have increased $13,012,83 since 1912. With our increased state tax, we earnestly ask the citizens to carefully consider the appropriations to be raised at our next annual meeting. The assessors are today using the information concerning your taxable real estate, which has been handed down to them by their predecessors, and earnestly recommend that the survey of the taxable real estate of the Town, which was started in 1913, be continued to completion.

# REPORT REGARDING MAINTENANCE OF THE POOR.

The amount raised for the Relief of the Poor for 1915 was $7,500. Out of this must be deducted $929.63, the unpaid bills of 1914, leaving $6,670.37 for the Maintenance of the Poor for 1915.

There are $1,585.20 of unpaid bills for 1915, or $655.57 in excess of last year, meaning that if it costs the same amount to care for the poor in 1916 as in 1915, the amount necessary will be $8,155.57.

The total net cost of maintenance of the Cohasset Home this year was $2,439.61, or $153.10 more than last year.

The actual maintenance of the Home has been less than last year as the actual number of regular inmates has been greater necessitating more food, heat, electric light, clothing, etc.

The amount of assistance rendered the poor outside of the Cohasset Home and given by various out-of-town Overseers to people gaining a legal domicile in Cohasset was $1,157.66.

The maintenance of the Cohasset Home being $2,439.61, leaves the amount of assistance rendered the poor within the town limits outside the Cohasset Home, $4,562.07.

We have rendered aid to three men, six women and fifteen children other than received assistance last year. In several cases relief has been discontinued, being brought about in several different ways. In no case has any hardship been brought about. Oftentimes one hears certain persons criticizing, regarding the amount expended by the Overseers of the Poor. It may seem to one who does not know all the circumstances, that certain assistance is unwarranted. It may be that a father apparently is a loafer or that he is an habitual drinker and although this individual may receive some benefit from money contributed by the town for his family, there is no real way to prevent it other than deprive,

and neglect the entire family. It may be that the mother is addicted to the liquor habit. Are poor little innocent children born unto such parents to suffer with hunger and cold and be deprived of a limited education? No, certainly not. If you care to investigate thoroughly, you will find your money is being expended among the mothers and children.

Your Town Officials realize the expense connected with the Cohasset Home which may seem an unnecessary expense. Your present officials are not the founders of this institution. There may be things to be said against the plant and there are also things to be said in favor of the institution. The vacant rooms, even though equipped with steam heat and electric lights, when offered to many applicants seeking town relief, have proved to have no attraction whatever. Straight cash aid seems to be the specialty in line of relief for a certain class, and when offered comfortable quarters at the Cohasset Home, they decide to provide for themselves, resulting in a financial benefit to the Town.

Every citizen of Cohasset can feel that those who are cared for at the Cohasset Home are not neglected or abused. It is with pride that Cohasset can say that our Home is one of the best-managed institutions in the State, not a penny being wasted and the inmates receiving the kindest treatment in every respect. Any person that criticizes the management of the Poor Department, without first investigating each detail of the Department himself, should be considered only as an ignorant, trouble-breeding citizen.

Respectfully submitted,

WILLIAM O. SOUTHER, Jr.

*Chairman, Overseers of the Poor.*

# REPORT OF TREE WARDEN

*To the Citizens of Cohasset :*

GENTLEMEN :

I submit herewith a report of the Tree Warden Department for the year ending December 31, 1915 :

As in former years the planting of young trees was taken up in the spring and about one hundred were planted in different parts of the town. And as the past summer was a very wet one the young trees encountered no set back during the entire season. After this work was done spraying for tent caterpillars was begun. All of the roadsides were sprayed, also some pieces of pasture land and old orchards that were badly infested. The tent caterpillars were not as numerous last year as they were the year previous. After spraying the caring for young trees was again taken up, such as re-staking and digging around them, after which spraying for elm bettles was begun. All elm trees on roadsides throughout the town were sprayed. When this was completed the work of pruning old trees was continued to some extent.

I was requested by the Selectmen to remove underbrush and trees on Nichols Avenue, which obstructed the view around a curve opposite Mr. W. R. Sears' driveway. at an expense of about $25.00 which the Selectmen provided for outside the Tree Warden appropriation.

Although, we have been very fortunate in not having any large trees blow down during the heavy wind storms of the past winter, there is always some cleaning of branches that blow off from the trees, and in most cases these branches have been weakened by the work of the lepoard moth which has been discovered in some of our best elm trees throughout the town.

The citizens of the town are becoming more interested each year in the care of young trees planted on the roadsides. And, as your Tree Warden, I take great pleasure in behalf of the town to thank them for the assistance they have rendered me.

Whereas, the office of Local Moth Superintendent has been united with that of Tree Warden again, I believe the sum of $600, instead of $1000, will do the necessary work in this department the ensuing year, as when both departments are combined the spraying can be done much cheaper and accomplish the same results. Therefore, I recommend that the sum of $600 be raised and appropriated at the annual meeting in March next for Tree Warden Department for the ensuing year. A statement of finances of this department will be found in the Town Accountant's report.

Respectfully submitted,

JOSEPH E. GRASSIE,

*Tree Warden,*

# REPORT OF SUPERVISOR OF MOTH WORK

As my services have been discontinued by Mr. Mapes and Mr. Brown, members of the Board of Selectmen of Cohasset, I feel that certain recommendations that I might make would be of little value at this time.

I have not, during my year of service, received any complaint from the Selectmen regarding my work and the reason given by the Selectmen who failed to reappoint me was that the man receiving the vote for Tree Warden should be appointed Supervisor of Moth Work.

On the recommendation by the State Forester the Legislature adopted a few years ago an act to provide for the appointment of a Moth Supervisor in January for the sole reason of taking this office out of politics. It very evidently is the desire of the majority of the Board of Selectmen of Cohasset to continue this office as a political one as in the past.

If after serving the Town faithfully for a year, I was not wanted, I decided the best thing to do was to voluntarily resign which I have done as it didn't seem wise to in any way cause any feeling between the State Department and the Town, although the appointment of the Selectmen could not become effective until approved by the State Forester.

I feel that the best report that I can offer at this time to every citizen of the Town is a copy of a letter sent to the Board of Selectmen of Cohasset preceding their action taken against me resulting in my dismissal. Allow me to submit the following: —

Office of State Forester
6 Beacon St., Boston, Jan., 12, 1916

Board of Selectmen,
Cohasset, Massachusetts.

Gentlemen:

I had the pleasure of a visit from your local moth superintendent, Mr. Young, here at the office this morning. Mr. Young seems to be somewhat worried over the rumor that there are some chances

of his not being reappointed to the moth superintendent position for the coming year. I assured him that as far as I knew nothing had come to my attention that would indicate there is likely to be any change and advised that he talk the matter over frankly with your board and ascertain what is the matter himself, if there is any.

After talking with him it occurred to me that it would do no harm if I should drop your board a line stating that Mr. Young's work has been extremely satisfactory throughout the past season from the State Eorester's standpoint, and I am sending you the following report of this year's work on Cohasset which was compiled last month, similar to the data brought together on our conditions in all towns and think you will be interested in reading it. It is as follows:

Cohasset, Never has the work been so well cared for in the town as during the past season. Conditions are most satisfactory and on every hand a feeling of cooperation is met. A great measure of credit must be extended to the Selectmen and town auditor for their liberality and good business judgment.

About 500 acres of woodland were sprayed, all being private work. Five miles of wooded drives were cared for by private subscriptions and all private property throughout the town with but few exceptions were self-supporting.

This town has undertaken to clear all of its wood roads 100 feet back. About 10 miles have been so thinned by resistive cutting. In addition the town has acquired a large tract of woodland for park purposes, which it will undertake to preserve for the future welfare of the town.

About 25 acres of woodland have been thinned and made resistant to further moth attacks during the past season under advice from the department, and in addition to numerous individual thinnings made.

Under the present management and system, the moth question has ceased to be a problem in this town. This work will not require reimbursement.

You can see, therefor, from the above report that we feel the year has been a most successful one, and really it is to be hoped

that Mr. Young can be continued in this work, as it is believed his services the coming year will be even more valuable than during the past one.

Pardon me for having written you so much at length but I thought you would be interested perhaps from our standpoint.

Believe me

Very sincerely yours,

(Signed) F. W. RANE,
*State Forester.*

It is very evident from the State Forester's letter that the State Forester wanted the Selectmen to continue my services. It is now a matter for the citizens of Cohasset to decide and the only way for me to find whether my services during the past year were appreciated or not is to become a candidate for Tree Warden which I have decided to do and which matter will be voted upon at your annual March meeting.

Respectfully,

GEORGE YOUNG.

The balance, $2,500, of the late Horace W. Wadleigh's bequest to the Town for Park purposes, received during the year now ending, has been placed on deposit with that received during the previous year, making a special total deposit of $5,000 known as the Wadleigh Park Fund, and this amount is not included in the above body of the Treasurer's report. The interest upon this fund to date, amounting to $154.07 has been withdrawn and used, and is accounted for in the above report.

NEWCOMB B. TOWER,

*Treasurer and Collector.*

COHASSET, Dec. 31, 1915.

# REPORT OF THE BOARD OF ENGINEERS

*To the Board of Selectmen:—*

GENTLEMEN,

The Board of Engineers appointed by your honorable board, for the year ending April 30, 1916, met in accordance with your instructions and organized with the choice of officers as follows:

Chief—Henry E. Brennock.

Assistant Chief—George Jason.

District Chief—Sidney L. Beal, North District.

District Chief—George F. Sargent, Jr., Beechwood District.

Clerk—Thomas A. Roche.

The department has been called to answer 64 alarms during the year ending Dec. 31, 1915. Fires in buildings, 20. Forest fires, 40. False alarms, 4. We have also been called on for assistance from the town of Scituate on two occasions. Following is the letter received from the chief of the Scituate Fire Department.

The fire alarm system is in good condition at present, also the apparatus, with the exception of Combination No. 1 which needs painting and varnishing.

The building occupied by Combination No. 2 has been repaired and painted and is in good condition. We once more respectfully call your attention to the unsafe condition of the buildings at the Cove.

We respectfully recommend that the sum of $3,500.00 be raised and appropriated at the annual meeting in March next for the maintenance and operation of the department for the ensuing year. This sum includes the salary of the chief, and painting and varnishing the auto trucks.

We also recommend the purchase of at least 500 feet of new hose, the cost of which, at the present price, will amount to $320.00.

Respectfully submitted,

HENRY E. BRENNOCK, *Chief.*
GEORGE JASON,
GEORGE F. SARGENT, JR.,
SYDNEY L. BEAL,
THOMAS A. ROCHE.

[COPY]

SCITUATE FIRE DEPARTMENT

Board of Engineers

Chief, E. R. Seaverns. Clerk, F. W. Litchfield.

April 22, 1915.

CHIEF BRENNOCK,
Cohasset Fire Department,
Cohasset, Mass.

*Dear Sir:*

As chief of the Scituate Fire Department and on behalf of the citizens of this town, I wish to thank you for the efficient services rendered at the fire of April 20.

The valuable aid, so freely and promptly given by your department, will always be remembered and this department stands ever ready to give you such assistance as lies within our power. Please mail me your bill.

Again thanking you, I remain,

Fraternally yours,

E. R. SEAVERNS, *Chief.*

P. O. Box 105, No. Scituate.

# REPORT OF SEALER OF WEIGHTS AND MEASURES

*The Board of Selectmen* : —

Gentlemen,

Your sealer in submitting his third annual report would respectfully call your attention to the small number of appliances condemned this year, showing we think ,the result of an endeavor of this department in previous years to maintain all apparatus at its maximum efficiency, and with the cooperation of our merchants to eliminate any which owing to age or hard usage, constituted a risk to the consumer and the dealer as well.

The detailed work of this department covering examinations, tests, reweighings, etc., is included in the report to the State Commissioner, but table below shows the routine work in connection with the various appliances now in use.

| | Adjusted | Sealed | Condemned |
|---|---|---|---|
| Scales | 20 | 84 | 3 |
| Weights | 6 | 178 | 1 |
| Liquid measures | 0 | 51 | 3 |
| Dry measures | 0 | 11 | 0 |
| Pumps | 2 | 7 | 0 |
| Yardsticks | 0 | 2 | 0 |
| Milk jars | 0 | 55 | 1 |
| | 28 | 388 | 8 |

## Hawkers and Pedlars

Chapter 253 General Acts of 1915 transferred the licensing power from the Secretary of the Commonwealth to the Commissioner of Weights and Measures, the power of enforcement remaining with the police departments as before with the assistance and cooperation of the state inspectors and the sealers of weights

and measures. While the licensing power is new, the law governing licenses dates from colonial times, and with its many additions and amendments constitutes a tangle on which many of our judges held decidedly different views. While a few articles stand clearly defined, many more do not, and the question as to what may or may not be food, the dividing line between the agent and the pedlar, to what extent a farmer may purchase outside produce without requiring a license for selling, are a few of the stumbling blocks which have bowled over some energetic sealers who have attempted a rigid enforcement of the law. Your sealer has felt that action based on a happy policy of "I don't know where I'm going but I'm on my way," while perhaps adapted to a Peace Expedition would not meet with the approval of your board. A bill for the codification of the old laws was referred last June to the incoming legislature, and additional legislation, the State Commissioner informs me, will be asked for this year. When such is in force your sealer promises an enforcement of all license laws, basing his policy on equity and common sense.

## Kitchen Scales

Magazine articles published this year have laid particular stress on kitchen scales as a necessity in every well regulated kitchen for the weighing of all supplies, and while this matter may not perhaps be a subject for this report, since the writer's opinion has been asked it may properly be referred to here. The state authorities strongly endorse this movement, but state opinions like many state laws are not equally adapted for large cities and small communities at the same time. The writer's mind is fully open on this question and he holds no brief for either the dealer or the housewife, although perhaps pleading guilty to a warm spot in his heart for the cook. He is of the opinion that in cities or manufacturing towns where a large foreign element exists both among dealers and consumers, that gross abuses undoubtedly exist which a kitchen scale backed by legal action on the part of the sealer would do much to correct, but in small towns where the dealers are reputable citizens, in most cases friends or acquaintances of their customers, he questions whether such action is necessary or whether it would repay the time and trouble involved, especially in the case of meats and poultry

where trimmings would have to be secured with each purchase. Scales in Cohasset are tested at intervals frequent enough to insure their accuracy barring accidents, and reweighings made by the sealer with and without the knowledge of the dealers would indicate that weighings are carefully and honestly made, but in any event house weighings to be of value should be on scales tested and approved by the sealer which he is always ready and willing to do. It probably is inherent in all of us to feel now and then that somebody is "doing" us, and when this suspicion veers toward the butcher or groceryman, your sealer might perhaps, without interfering with our physicians, prescribe the mental tonic of a kitchen scale.

Yours respectfully,

CALEB NICHOLS,

*Sealer*.

Cohasset, January 6, 1916.

# REPORT OF CHIEF OF POLICE

*To the Honorable Board of Selectmen of the Town of Cohasset.*

GENTLEMEN—The Police Department has, we trust, met acceptably all reasonable requirements during the past year.

The duties it is called upon to perform are many and varied; and often from the very nature of the cases involved it is working the hardest and accomplishing the most when it might be credited by adverse critics—if such there were—with doing but little. It aims to do its duty in a manner that will meet approval; but fair-minded criticism is always welcomed.

For the continuance of the work, I see no reason why the amount appropriated for 1916 should not be the same as for 1915.

For the financial account of the department I refer you to the Town Accountant, Mr. Edward L. Stevens, for whose assistance in attending to its type-written correspondence, I express my thanks.

I thank your Honorable Board for the encouragement and help so courteously extended to me throughout the year.

Respectfully submitted,

THOMAS L. BATES,

*Chief of Police.*

# REPORT OF BOARD OF HEALTH

Your Board respectfully submits the following report:

The Town has been fairly free from contagious diseases the past year, only six cases of scarlet fever, six of measles and a large number of whooping cough, one death resulting therefrom.

A meeting was called last summer at Plymouth by the State Department of Health to consider the advisability of establishing in the south eastern Massachusetts district a hospital for the care of contagious diseases. It was the unanimous opinion of the different towns represented that it was to the financial advantage of the town that an arrangement be made with the Jordan Hospital at Plymouth for the care of such patients.

Yours respectfully,

IRVING F. SYLVESTER,
WARREN F. SNOW,
*Board of Health.*

# REPORT OF INSPECTOR OF MILK AND VINEGAR

*To the Honorable Board of Health*:—

The work of this office during 1915 has been somewhat changed as more time has been spent in inspecting stables and the cows which produced milk sold in this town. Chap. 744, Acts of 1914 have laid upon the inspector the duty of issuing permits to both producers and dealers in milk. This necessitates going into adjoining towns or wherever milk is produced that is sold in Cohasset. These permits can be revoked for any violation of the regulations regarding milk which the Board of Health enacts.

Fewer samples were taken for bacterial examination than in some previous years. No outbreaks of disease have been traced to our milk supply this year.

When our citizens are willing to pay the extra cost of producing clean milk they will get it. Milk should be graded and the price made to suit.

Respectfully submitted,

DARIUS W. GILBERT, V. S.,
*Inspector of Milk and Vinegar.*

## REPORT OF INSPECTOR OF SLAUGHTERING

*To the Honorable Board of Health*:

During the year I have attended to the duties of this office and have been present at the licensed slaughter houses when slaughtering has been in progress.

Also I have inspected the carcasses of those animals which were slaughtered on the owner's premises.

It seems to be hard to impress on some people that the Inspector must be present at the time of slaughter, but each year sees some improvement and nearly every one is now giving me sufficient notice to enable me to be present as the law requires.

Several arrests have been made in the State for violation of the above-mentioned law and the owners, as well as the inspectors, have been fined. I am, therefore taking this opportunity to inform our citizens that they may take notice and accordingly govern their actions.

Respectfully submitted,

DARIUS W. GILBERT, V. S.,
*Inspector of Slaughtering*.

OLIVER H. HOWE, *Treasurer.*

Cohasset, January 1, 1916.

We have examined the foregoing account and find it correct and properly vouched. We have also examined the securities in which the funds of the Library are invested, as shown by the foregoing schedule.

GEORGE W. COLLIER,
EDWARD NICHOLS,
*Examining Committee.*

Cohasset, January 4, 1916.

# REPORT OF THE DIRECTORS OF THE PAUL PRATT MEMORIAL LIBRARY

In presenting their annual report the directors have the satisfaction of calling attention to the continued increase of circulation of books for home use, both at the main library and at the Beechwood branch. At the branch in Beechwood the circulation has increased fifty per cent. The success of this enterprise encourages the directors to go on with their efforts to provide larger and better library facilities in this part of our town.

The privilege of taking books from this branch has been given to those persons who live in Scituate just over the line at Beechwood.

The selecting and buying of new books have had the careful attention of our book-committee Suggestions of books desired by the citizens are very much desired by the librarian and the book-committee.

The capacity of our stacks having been reached, it was found necessary to finish the lower stack-room and equip it with stacks. This work has been undertaken and completed this year at the cost of a little over two thousand dollars. For many years to come the problem of more space for books will not have to be met.

The directors regret the loss of the services and council of the Rev. F. B. McAllister, who ceased to be a director last July. Mr. McAllister for ten years has rendered very efficient and helpful service in our library work and for the last two years was president of our board.

The reports of the Librarian and the Treasurer, which are subjoined, give details of the work of the library and of the cost of its maintenance.

Respectfully submitted,

HARRY E. MAPES,
JAMES LANGLEY, *Treasurer;*
W. R. COLE, *Clerk;*
EDWARD NICHOLS,
C. C. WHEELWRIGHT,
GEORGE W. COLLIER,
F. V. STANLEY,
*Board of Directors.*

## LIBRARIAN'S REPORT

*To the Directors of the Paul Pratt Memorial Library.*

The following is a report of the work in the Library for the year ending December 31, 1915 :—

The Library has been open every library day in the year with the exception of days for taking of inventory and legal holidays.

In going over the Library we find three fiction and one non-fiction books missing in the adults' section ; and the books in very good condition.

Gifts of books and magazines, and weekly papers have been received from Messrs. F. W. Whitredge, L. S. Richards, A. S. Bigelow, P. Andreae, O. W. Norton, James Longley, Silas Peicre & Co., Mrs. E. B. Bryant, Mrs. J. L. Bremer, Mrs. T. F. Richardson, Mrs. George G. Crocker, Miss M. P. Tower, Miss Alice Hyde, New York Stock Exchange, Massachusetts Woman's Suffrage Association, Massachusetts Anti-Suffrage Association, Carnegie Endowment for International Peace, Scituate Woman's Club, State and Government; and two dollars in money from Mrs. R. F. Clark.

## Registration and Circulation

| | |
|---|---|
| Population of Cohasset, 1915 census | 2,800 |
| Total registration from July, 1903 to December, 1915 | 3,040 |
| Registration in force December 31, 1914 | 1,604 |
| Registration for year 1915 | 209 |
| Registration cancelled 1915 | 24 |
| Registration in force December 31, 1915 | 1,789 |
| (Being about 63 per cent. of the population) | |
| Library open, days | 347 |
| Books issued for home use | 17,628 |
| Average home use per diem | 50.9 |
| Average home use per inhabitant | 6.2 |

Classification of books used:

| | JUVENILE | ADULT | TOTAL |
|---|---|---|---|
| Philosophy and Religion | 35 | 95 | 130 |
| History and Biography | 401 | 714 | 1,115 |
| Travel and Description | 426 | 403 | 829 |
| Literature and Poetry | 341 | 324 | 665 |
| Social Sciences | 19 | 261 | 280 |
| Natural Sciences | 226 | 177 | 403 |
| Arts which includes music | 229 | 521 | 750 |
| Fiction | 3,606 | 7,385 | 10,991 |
| Magazines | 409 | 2,056 | 2,465 |
| Total | 5,692 | 11,936 | 17,628 |

## Accessions

| | | |
|---|---|---|
| Number of volumes in library Dec. 31, 1914 | | 14,560 |
| Number added by purchase 1915 | 312 | |
| Number added by gift 1915 | 73 | |
| Number added by binding of magazines 1915 | 39 | 424 |
| | | 14,984 |
| Number of volumes withdrawn | | 183 |
| Total number of volumes in library Dec. 31, 1915 | | 14,801 |

The library has received very generous gifts of books from Mrs. E. B. Bryant, Mrs. J. L. Bremea and Mr. A. S. Bigelow which have not gone into the library as yet and are not included in the above accessions.

Of the above accessions, 424 volumes, 157 have been added to the Paul Pratt Memorial Library, and 267 to the Cohasset Free Public Library.

The total amount of money spent during the year for books has been $462.26, of which amount the Paul Pratt Memorial Library has paid $156.81, and the Cohasset Free Public Library $305.45.

## Report of School Children's Reading from Lists from September, 1914 to July, 1915.

| Grade | Children | Books |
|---|---|---|
| Fourth | 16 | 112 |
| Fifth | 24 | 168 |
| Sixth | 20 | 140 |
| Seventh | 16 | 115 |
| Eighth | 5 | 35 |
| Total | 81 | 570 |

Average of 7.

During the year, 209 books have been sent to the Nantasket Library, and 356 to the Beechwood Branch Library, of which the following is the report of the circulation during the year.

| | JUVENILE | ADULT | TOTAL |
|---|---|---|---|
| Philosopy and Religion | 0 | 10 | 10 |
| History and Biography | 13 | 43 | 56 |
| Travel and Description | 45 | 58 | 103 |
| Literature and Poetry | 35 | 14 | 49 |
| Social Sciences | 0 | 11 | 11 |
| Natural Sciences | 4 | 18 | 22 |
| Arts | 19 | 13 | 32 |
| Fiction | 1,316 | 1,894 | 3,210 |
| Magazines | 4 | 0 | 4 |
| Total . . . | 1,436 | 2,061 | 3,497 |

Respectfully submitted,

SARAH B. COLLIER,
*Librarian.*

# REPORT OF THE TRUANT OFFICER

*To the School Committee*:

In accordance with a request from the Superintendent of Schools I herewith submit my first annual report. As this report must be brief, no attempt will be made to give a detailed account of the work of the year. Regular attendance at school can scarcely be over-estimated. This matter receives vigilant attention and although there are still some parents who do not seem to realize that they are breaking the laws of the Commonwealth by keeping children out of school; I think considerable improvement in this matter has taken place during the past year.

Respectfully submitted,

THOMAS L. BATES.
*Truant Officer.*

# REPORT OF HIGHWAY SURVEYOR

COHASSET, MASS., FEB. 1, 1916.

*To the Citizens of Cohasset*:—

The following is my report as Highway Surveyor from Jan. 1, 1915, to March 5, 1915:

Considerable damage was done by the storm of January to the roads along the shore as the rocks and beach stones were washed into the roads in some places at the depth of twelve and eighteen inches, thus causing quite an expense in removing them and repairing the roads. Some grading was done on Pleasant street, also some on Cedar, Doane and South Main streets. In conclusion I wish to thank the citizens for their assistance to me while I served the town as Highway Surveyor.

Respectfully submitted,

F. W. WHEELWRIGHT.

Amount spent on streets as follows:—

| | |
|---|---|
| Atlantic Avenue | $93 46 |
| Border street | 18 70 |
| Oak street | 10 55 |
| Cedar street | 15 36 |
| Beechwood street | 13 75 |
| Pleasant street | 113 69 |
| South Main street | 16 30 |
| Doane street | 68 41 |
| | $350 22 |

Labor:—

| | |
|---|---|
| B. F. Morse | $8 40 |
| John Mulcahey | 11 40 |
| Edward T. Reiley | 6 00 |
| Bartholomew Daly | 7 20 |

| | |
|---|---|
| Dabor : — | |
| Edward Cronican | $2 40 |
| John H. Wilbur | 8 40 |
| Jesse T. Barnes | 3 60 |
| Harry White | 2 40 |
| John Kennedy | 9 60 |
| Thomas Connery | 9 60 |
| Edward McSweeny | 4 80 |
| William E. Kinsley | 2 40 |
| Thomas O'Neil | 3 60 |
| Robert J. Clark | 4 80 |
| James Whitman | 4 80 |
| Joseph Sullivan | 4 80 |
| James Reed | 4 80 |
| Edwin Bates | 9 60 |
| George F. Sargent | 60 |
| Teams : — | |
| Thomas A. Stevens | 23 00 |
| George W. Mealey & Sons | 23 00 |
| Harry L. Willard | 25 88 |
| John T. Barnes | 20 13 |
| William T. Barnes | 17 25 |
| John Wilson | 5 75 |
| John J. Pratt | 11 50 |
| Walter P. Bates | 5 75 |
| Oliver H. Bates | 31 63 |
| Edwin W. Bates | 23 00 |
| Samuel E. Pratt | 14 38 |
| Frank W. Wheelwright | 21 00 |
| Gravel : — | |
| H. L. Brown | 5 00 |
| Joseph W. Whitcomb | 1 25 |
| Cyrus W. Bates, stone and gravel | 12 50 |
| | $350 22 |

For other expenditures, see Town Accountant's report.

# REPORT OF HIGHWAY SURVEYOR

COHASSET, MASS., February 1, 1916.

*To the Citizens of Cohasset:*

Following is my report as Highway Surveyor for 1915:

Each of our streets received the usual routine repair work necessary every year. In addition, it has become necessary to keep a force at work constantly during the automobile season filling and patching wherever holes are started or the road surface begins to disintegrate. This work is very important and, if neglected, in no time whole portions of a road's surface are destroyed.

All new construction has been built in a permanent manner and with proper maintenance should last for years. The sidewalk along north Main street, authorized by the Town last year, was planned carefully before work was commenced. The State Highway Commission was consulted, and the work was done in a thorough manner. All ledges and bowlders were blasted away and the proper grades secured.

A six-inch foundation of stone was then laid the entire length of the sidewalk, from Forest Avenue to a point near Mrs. Frank-Fields and a good foot.way constructed. Considerable material ob tained from the blasting on this job was utilized to widen the street at the same time and the finished work has received the approbation of the State authorities.

In addition the existing sidewalk from Mrs. Henry's to the rear drive of Mr. A. S. Bigelow was resurfaced with blue stone. There remains therefore to be built on North Main street a stretch from Mrs. Field's to Mrs. Henry's and I have included in my estimate the sum of $1,000 to do this work. It is obvious that the safety of pedestrians along this much travelled street demands that this remaining part be completed at an early date.

The sidewalk on Sohier street was regraded in part, and resurfaced to Mr. Bancroft's residence, and the Border street walk resurfaced to the Gulf Bridge. The north side of Cushing road used the past few years as a dump has been levelled and the foundation of a good sidewalk made, needing only some additional material to complete the job and give the residents of this neighborhood a much needed footway.

Pond street from Mr. Nickerson's to the entrance of the drive of the Cohasset Home received attention it has long urgently needed. On a foundation of eighteen inches of pasture stone was placed six inches of broken stone, gravel, tarvia and sand, the roadway widened and drains built. We now have a good road to the hill at the Cohasset Home and a portion of the remaining distance should be rebuilt this Spring.

Doane street was regraded, widened and resurfaced with gravel and that part of the ledges known as the Whale's Back received very necessary attention. It was also necessary to repair the wooden bridge, known as Cunningham Bridge. the planking was rotton and quite dangerous.

At the request of the Board of Health the drain under Ripley Road near the old Hanlon building was cleaned at a considerable expense which could have been placed to good advantage on the top of the road.

Several catch basins have been built in necessary places. These have all been built in a substantial manner and a grating calculated to bear the heaviest loads used in all cases. Such basins have been established in the following streets:

Cushing Road, 2
Beach street, 2
Atlantic Avenue, 2
Beechwood street, 1
Highland Avenue, 1
North Main street, 1
South Main street. 2—(Rebuilt)

Most of the broken stone used on Pond street was taken from the ledge at the railroad crossing, and the road widened at the sharp bend, relieving a very dangerous spot. In addition the face of the ledge was cleaned away, removing much of its former unsightliness.

Particular care has been used in the maintenance and preservation of the apparatus and tools of this department. An outlay of over $500 was necessary last spring to place the stone crusher and steam roller and other apparatus in condition to be used. All snow plows were picked up, repaired, painted and placed under cover. All the fences bordering on the highway were also painted; a part of them one coat and the rest two coats.

A problem that is receiving the attention of road experts everywhere and which is of particular interest to us, is the devising of a method to make tarvia roads safe for horses. Your Highway Surveyor has kept in touch with authorities everywhere and any plan that seems to promise relief will be promptly followed.

Jerusalem Road must receive attention, but in order that large sums of money shall not be wasted in indiscriminate repairing and patching, a careful study of the whole situation should be made and a comprehensive plan made looking for future needs. We must remember that this beautiful street is one of Cohasset's chief attractions and too much thought can not be put on this matter.

Considerable work must be done on Margin street this year. The Border street sidewalk should be extended to the Scituate line, and I have included in my estimate an amount sufficient to do this. An 18-inch wall should cap the present sea wall along Border street from the shed of Mr. N. B. Tower to the boat yard. A place should be provided at the foot of Parker Avenue to permit teams or automobiles to turn. Beechwood street from H. L. Brown's to the Hingham line past the quarry needs attention and is included in the estimate for 1916.

The fountain at South Main and Summer streets should be relocated and a danger spot relieved. It is obvious that horse drawn vehicles from any or all of four directions stop here and the wagon or carriage projects into the road while the horses drink. It is the modern practise to place a fountain at one side leaving the open spaces for the faster moving vehicles to pass. South Main street should be straightened at this point, and the road over the hill widened and the grade lowered. I have made soundings and find the whole bank in front of Mr. Frank Allen's to be ledge but the work ought to be done in the near future. I understand that there is an article in the warrant covering this matter and I shall be pleased to furnish estimates covering the cost.

I thank the citizens for their support and interest in the work of this department during the past year.

A list of the assets of this department follows also a detail of expenditures.

### Assets of Highway Department

| Article | Value |
|---|---|
| One steam roller | $1,200 00 |
| One crusher, boiler, steam drills, etc. | 1,500 00 |
| One iron Studebaker oil cart | 500 00 |
| Two Abbot Downing oil carts with pumps | 400 00 |

## Painting and Repairing Fences

| | |
|---|---|
| Paid for labor, painting fences: | |
| Clarence S. Reddy | $7 20 |
| James Sullivan, Jr. | 31 20 |
| Joseph Jason | 57 60 |
| E. M. Cronican | 2 40 |
| John Oliver | 28 80 |
| Fred C. Higgins | 24 00 |
| George P. Tower | 16 80 |
| Ephraim Snow | 28 80 |
| John F. Smith | 42 00 |
| Ezekiel L. James | 9 60 |
| Melvin Thompson | 31 20 |
| John R. Bean | 31 20 |
| Percy G. Sargent | 20 40 |
| George F. Sargent, labor, $9.60; stock, $56.20 | 65 80 |
| Repairing fences: | |
| William T. Tilden | 30 00 |
| George W. Crocker | 19 25 |
| Litchfield & Lincoln, stock and labor | 12 72 |
| | $458 97 |

Detail for other than ordinary labor and miscellaneous accounts:—

| | |
|---|---|
| William H. McGaw, repairing fences | $4 50 |
| William H. McGaw, paints, tools, etc. | 133 36 |
| William P. Malley, repairs and bolts | 1 90 |
| James McNeilly, stone | 8 15 |
| Mrs. John McCormack, stone | 4 75 |
| Mrs. Rita Leonard, stone and gravel | 130 75 |
| Henry Nickerson, stone | 45 25 |
| Walter P. Bates, stone | 25 |
| Thomas J. Ayres, stone and gravel | 19 50 |
| Elmer E. Bates, stone | 50 |
| A. A. Davenport, stone and gravel | 10 00 |
| H. L. Brown, gravel | 55 50 |
| Joseph W. Whitcomb, gravel | 19 25 |
| The Lane Quarry Co., dust | 10 10 |
| Barret Mfg. Co., patching material | 261 23 |
| Buffalo Steam Roller Co. | 164 33 |
| Good Road Machinery Co. (crusher) | 299 49 |
| George Welch, lumber (crusher) | 26 34 |
| James DeGoff, dynamite | 36 00 |
| Irving F. Sylvester, dynamite | 5 25 |
| Tower Bros. & Co., coal, paint, lumber, tools, drain pipe, grate, etc | 755 75 |
| C. H. Trott, exploders, etc. | 23 27 |
| E. E. H. Souther, tags, rubber boots | 9 60 |
| E. W. Bates, stone drag | 5 00 |
| M. J. Sullivan, leather hose straps, etc. | 12 00 |
| Kimball Lumber Co., Hingham | 15 18 |
| Joseph St. John, oil, etc. | 2 60 |
| H. L. Brown, tools | 7 15 |
| Litchfield Lincoln Co., stock and labor, teaming | 26 75 |
| Sanderson, repairs on battery | 6 85 |
| M. S. Leonard, repairs on crusher | 7 45 |
| George W. Kimball, 5 cords blasting covering | 10 00 |
| Sanderson, iron for chains | 2 22 |
| W. & L. E. Gurley, die (marking tools) | 2 15 |
| John H. O'Neil, wrenches | 4 00 |
| | $2,126 47 |
| Total highways | $13,234 87 |

## New Sidewalk, North Main Street

| | |
|---|---|
| Appropriation | $112 00 |
| Paid for Ord. labor: | |
| Jeremiah Leary | $114 00 |
| Charles L. Curtis | 144 00 |
| Thomas Curtis | 127 20 |
| Horace W. White | 75 60 |
| Thomas H. Henry | 106 80 |
| Jesse T. Barnes | 138 00 |
| John H. Wilbur | 21 60 |
| Alfred M. Antoine | 2 40 |
| Antoine L. Silvia | 2 40 |
| John J. Silvia | 40 80 |
| James Reid | 73 20 |
| James H. Davis | 26 40 |
| Richard Manning | 39 60 |
| George Stoddard | 2 40 |
| John F. Smith | 7 20 |

| Balance | $1 52 |

Respectfully submitted

GEORGE JASON,
*Highway Surveyor.*

# REPORT OF THE INSPECTOR OF WIRES

COHASSET, MASS.

*Board of Selectmen*: —

GENTLEMEN: —

I have the honor to submit herewith my fourth annual report.

We have had several fires during the past year caused by electricity, two of which necessitated the presence of the fire department: one a fire inside a building, the residence of Dr. A. C. Badger on Main street, the other on the outside electrical plant, the corner pole of the high tension line at the residence of Mr. Ezekial James on King street. Both fires were of a serious nature.

An electric flatiron left on a window seat with the current "on", in Dr. Badger's kitchen after the occupants of the house had retired started the woodwork and the window draperies, causing considerable fire loss. Prompt discovery and good work by the fire department prevented its spread. This fire was not due to any fault in the electrical apparatus or its installation. I found the flatiron circuit improperly fused however, but in this case this fact had no relation to the cause of the fire.

The other fire was caused by lightning following the high tension wires, arcing to the ground bar on the cross-arm thence down the pole on the ground wire, the high potential current following the lightning. A poor connection at the junction point of the ground wire along the pole with the ground rod, resulted in the direct path to ground burning off at this point, forcing the current to seek another path. This incident occuring in a heavy rain storm, the pole was rapidly being burned off at its base and the guys holding same either had parted or were upon the point of parting and there is no doubt but that in a short time the pole would have fallen with serious results. The current was ordered off at once and the fire department put out the blaze with little trouble.

This fire was directly due to faulty workmanship. It would seem advisable as a result of this fire to replace all old type wooden strain insulators by a type of non-combustible material, especially on lines exposed to cross with high potential circuits. A study is being made of the situation and data collected, so that recommendations will be made at a later date to the companies concerned.

There were several other fires of a minor nature, prompt discovery in each case preventing any serious results.

Outside plant in our town limits is maintained by the following companies or town departments:

Electric Light & Power Co., of Abington and Rockland.
Hingham Municipal Light.
Weymouth Light & Power.
Bay State Street R. R. Co.
New England Tel. & Tel. Co.
Southern Mass., Tel. & Tel. Co.
Cohasset Police Signal System.
Cohasset Fire Alarm System.
Hingham Fire Alarm System.
Private Telephone and Call Bell Systems, etc.

The plant as a whole is in good condition. Many items of a minor nature have yet to be changed or improved and a better spirit of co-operation with the Town Department seems desirable, but a good rate of progress is maintained and wonderful results have been accomplished in the past four years. We are therefore in a far better condition as regards outside plant than most towns or even cities.

The Electric Light & Power Company of Abington and Rockland should give immediate attention to increasing the capacity of its high tension line, so as to relieve us of the sudden changes in load caused by the operation of the large motors at the Scituate Sand and Gravel Company at Greenbush. The flickering of our house lights caused by the starting of these motors is extremely unpleasant and continues until late at night. I would likewise call attention to the fact that we are dependent upon one trunk line for our supply of electrical energy, and the breaking of this line by storms, fires or other causes would deprive Cohasset or Scituate of electricity for light or power until the line could be restored.

While a connection is possible with the Weymouth Light & Power Company's lines at Green Hill, it would be of no practical value n an emergency, as the capacity of the wires are insufficient to carry any considerable part of our load.

Our fire alarm system is in good condition. Wherever the fire alarm wires and arms are above the electric company's wires, they should be placed beneath. The instances of this nature are few and the work ought to be completed this season.

The police signal system is in poor condition. This system was not designed for an outside system, consequently satisfactory results cannot be expected.

## Inside Wires and Apparatus

The number of electrical users in Cohasset has doubled in the past four years. The increased number of purposes to which electricity is applied in our houses and buildings demands the greatest care in the installation of wires and apparatus. The annual fire loss due to electrical causes is staggering. Most of this loss is directly due to preventable causes. Electric flat irons improperly installed or carelessly used, poor work by amateur electricians, injuries to wiring caused by plumbers, masons or carpenters making alterations in buildings, portable cords twisted about nails or hooks, broken switches or loose fixtures, fuses replaced by wire or larger fuses, each one of these items account for hundreds of thousands of dollars lost each year by fire.

Upwards of six thousand dollars worth of work has been done in buildings in Cohasset the past year on the recommendation of the Inspector of Wires. Owners of buildings have co-operated with him in many instances to improve the electrical conditions in buildings under their charge.

Our public buildings are in excellent condition electrically, the Town Officers in every case cheerfully following any recommendations that the Inspector of Wires has made to improve conditions. The Electricians License Law in effect September 1, 1915, is working out well. I have been obliged to take one man before the State Board for unsatisfactory workmanship and have also turned

the case over to our Town Attorney for action in the Courts. This new law makes it much easier for an inspector to enforce the rules relative to proper wiring and in the end will prove of great benefit to the house owner.

With the co-operation of the citizens in his work the Inspector hopes to place every building in Cohasset in such good condition electrically that we will reap a decided material benefit when the Town is next re-rated by the Insurance Companies.

Yours truly,

GEORGE JASON, Jr.
*Inspector of Wires.*

Cohasset, 1915.

# REPORT OF SCHOOL COMMITTEE

FOR THE YEAR

1915

# SCHOOL COMMITTEE, 1915–1916

| | |
|---|---|
| Thomas L. Stevens . . . | Term expires in March, 1916 |
| Dr. Darius W. Gilbert . . | Term expires in March, 1916 |
| Miss Edith M. Bates. . . | Term expires in March, 1917 |
| Dr. Evan P. Wenthworth . . | Term expires in March, 1917 |
| George Jason, Jr. . . . | Term expires in March, 1918 |
| Sheldon Ripley . . . . | Term expires in March, 1918 |

## Organization

| | |
|---|---|
| Dr. Darius W. Gilbert . . . . . | *Chairman* |
| Sheldon Ripley . . . . . | *Secretary* |
| Miss Edith M. Bates . . . . . | *Treasurer* |

## Regular Meetings

First Monday of each month at 7.30 P. M.

## Superintendent of Schools

Stanley C, Lary, Telephone 304-W.

## Office of the Superintendent

Osgood School, Telephone 349-W.

The Superintendent's office is open on school days from 8.30 to 12, and from 1 to 4.30. The Superintendent's office hours are from 8.30 to 9, and 3 to 4.30 on each school day.

## School Physician

Oliver H. Howe, M. D., Telephone 14.

## School Nurse

Miss Agnes Weir, Telephone 250.

## Attendance Officers

Thomas L. Bates, telephones 305-W and 372-W. John J. Grassie, telephone 197-M.

## School Calender, 1915–16

Fall term, September 13 to December 23. Winter term, first half, January 4 to February 19; second half, February 28 to April 15. Spring term, April 24 to June 28. Fall term opens September 11, 1916.

## No School Signal

Instead of the customary fire-alarm signal, the electric street lights will be used. The current will be on five minutes, 7.30 to 7.35, sessions suspended for grades 1 to 8 inclusive. 7.45 to 7.50 sessions suspended for all schools.

## Supervisors and Teachers, 1915–16

Supervisors:

Mrs. Edward L. Stevens—Music (1913).

Tearhers:

Edward A. C. Murphy—English and Science. Grades 8 to 13 (1913).

Minnie E. Bigelow—Commercial Subjects. Grades 9 to 13 (1902).

Marion C. Chandler—Modern Language. Grades 8 to 13 (1910).

Lulu B. Smith—Commercial Subject. Grades 9 to 13 (1914).

Dorothy Dixon—English, Foreign Language. Grades 9 to 13. (1915).

Helen Lyman—Home Economics. Grades 7 to 13 (1913).

John Black, Jr.—Manual Training and Mechanical Drawing. Grades 7 to 13 (1914).

# REPORT OF THE SCHOOL COMMITTEE

The School Committee submits its report for the year 1915, with an estimate of the amounts which will be needed for maintenance of schools and for conveyance of pupils for the current year.

The Committee has exerted every effort to maintain and improve the high standard set in the Cohasset schools in the personnel of the teaching staff and equipment. It is impossible for a town of limited means to retain all of its good teachers, but we have been fortunate in having few changes, and feel that our present corps is very efficient.

The Committee is proud of the sanitary arrangements which have been installed in the Osgood School during the past year. The improvements have long been needed, and are working most satisfactorily. It is hoped that tax-payers and parents who have not already inspected the work that has been done, will visit the building in order to observe how judiciously their money has been expended and what a remarkable improvement has been made.

The Beechwood School-house has been painted and wired and electric fixtures installed. We are now planning to have a substantial iron fence in place of the dilapidated wooden fence, which is beyond repair. There is also a plan in progress to lay out the grounds with a driveway and a grass plot.

The roof of the Osgood School building must be re-shingled this year, the outside of the building painted and the chimney tops repaired. Specifications have been prepared and estimates obtained for doing this work.

A very comprehensive report on a sprinkler system and general fire protection for the Osgood School building has been compiled. We are indebted to Mr. Gilbert S. Tower, a fire prevention expert of the Factory Mutual Fire Insurance Cos., for the valuable suggestions embodied therein. He has made a careful study of the situation, and is particularly well qualified to advise along these lines. Estimates have been obtained from several sprinkler companies for installing a sprinkler system, and these figures have been

appended to the report of the School Committee. It is hoped that the voters will receive this report favorably and carefully consider its benefits. We recommend the safeguarding of the lives of our children, who are compulsory attendants in a dangerous wooden building.

We feel that the night school has satisfied a universal demand, and recommend another appropriation for this year.

There is no question but what the town needs a new school building to supplement the present Central school. Every room in present building is overcrowded, and there is no place for those additional classes which are absolutely necessary if we would obtain the best results for our children and for the money which we expend. We would refer you to the Superintendent's report for a more exhaustive study of the situation. Money should be appropriated at the annual Meeting in March for the purpose of procuring plans and specifications for an appropriate and substantial brick building. With a new building we must still continue to use all the available space in the Osgood School. There seems to be a universal appreciation of the necessity for pupils to complete the high school course, and it is our duty to provide them with every facility.

## Estimate of Amount Which Will be Required for the Current Year.

| | |
|---|---|
| General expenses: | |
| Expenses of School Committee, salaries and expenses of Superintendent | $1.800 00 |
| Expenses of instruction: | |
| Supervisors' and Teachers' salaries | 20,600 00 |
| Text books | 1,000 00 |
| Supplies and miscellaneous | 2,500 00 |
| Operating expenses: | |
| Janitors | 1,200 00 |
| Fuel | 1,700 00 |
| Electric light and power | 800 00 |
| Maintenance: | |
| Repairs and replacements | 1,000 00 |
| Auxiliary agencies: | |
| Libraries, health, etc. | 200 00 |

| | |

# REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the School Committee and Citizens of Cohasset.*

I submit herewith my third Annual Report which is the twenty-eighth in the series of Annual Reports of Superintendents of the Cohasset Public Schools.

## A Definite Program.

I would respectfully ask all citizens who are interested in the work of the Schools to re-read the reports of the Superintendent as found in Annual Reports of the Town for the years 1913 and 1914. Many matters dealt with, in those reports, will be referred to again in the report for this year, and a re-reading would emphasize the fact that there is an attempt, at least, to carry on a definite educational program.

In those reports, I tried to state in general terms, and explain somewhat in detail, the ideals which are governing the actions of present administration. I attempted to explain, briefly, the causes of the new tendencies in education, and how these new tendencies have affected our aims. I sought to give a clear explanation of how these new aims have re-shaped the work of our schools, how they have increased the cost, and, as I see it, have increased the efficiency of our schools. In my report for 1914, I gave particular attention to the crowded condition in the Osgood School, and discussed in detail the need of a new building.

## This Year's Report

In view of the fact that two school years have elapsed since a Survey of the Cohasset Schools was made by Dr. F. E. Spaulding, it seems fitting that the report for this year should deal, in some detail, with the results that have been attained in carrying out the recommendation of that Survey.

## The Cohasset Survey of 1913

First, it may be well to state, for general information, the facts regarding the Cohasset Survey of 1913. The idea of a Survey originated with the School Committee as then constituted. If I interpret their feelings aright, they were desirous, first, to learn from an authorative and impartial source, the condition of the Cohasset Schools; second, they wished a definite constructive program for the improvement of the schools. Both of these desires were met in the report which Dr. Spaulding submitted. They accepted the report and determined so far as possible to carry out its recommendations.

## The Man Who Made The Survey

At the time the Survey was made, Dr. Spaulding was Superintendent of Schools in Newton, Mass. He was recommended to the Cohasset School Committee by the Commissioner of Education for Massachusetts.

For information it may be well to state that Dr. Spaulding has for some years been recognized as one of the leaders of Educational thought and action in this country. He has worked unremittingly for the enlargement of educational opportunities in the public schools and his leadership has been a source of inspiration which is immeasurable. He was a member of the Staff which made a Survey of the Schools of Portland, Oregon. The report of that Survey was one of the most illuminating educational documents which has been published in recent years. Directly after his return from Oregon, he made his study of the Cohasset schools, and submitted a detailed report with recommendations. There have been repeated calls for this report but, since it has not been published, the requests have necessarily been denied. Very recently a request for a copy of the report was received from the State Superintendent of Public Instruction for Wisconsin. Nor has Dr. Spaulding's work been confined to educational fields alone. He was a member of the State Commission which made a report on "The Problem of Immigration in Massachusetts in 1914." He is at present Superintendent of Schools in Minneapolis, Minnesota.

## Increased Expenditures a Natural Consequence

In accepting this report, the School Committee recognized the fact that the readjustments advised would necessitate increased expenditure for support, but they believed that there was a sincere desire among the citizens of Cohasset for improved school conditions and that, provided this improvement could be shown, within a reasonable time, there would be found a willingness to pay the increased cost.

## Where Responsibility Rests

They delegated to the present Superintendent the duty of carrying out these recommendations, and it is he who should be held accountable for the results of the past two years, in so far as they apply to instruction and the cost of the same. With full recognition of the responsibility which devolved upon him, and neither seeking praise or evading blame, he has worked unreservedly for the enlargement of educational opportunities for the boys and girls of this community.

He has striven to keep boys and girls in school, and to aid them to obtain the beginnings of that skill which would enable them to get started in the way of a livelihood, and to become useful and efficient members of society.

He has sought to provide teachers of irreproachable character and special fitness for the tasks they were to undertake, and by helpful leadership and suggestions to cooperate with them in the solution of problems which daily confront them.

In all these things, and many others which have been attempted, it may be that he has failed. Unless, however, we are to reverse the usual order of justice, to render the verdict first and hear the evidence afterwards, it would seem only fair that the Superintendent be allowed to give an account of his stewardship. He assumes that judgments will be free from personal bias and prejudice, and based only on those factors which bear directly on the educational activities as carried on in the schools.

## The Recommendation of the Survey and the Results That Have Been Obtained

For convenience and brevity, it has seemed best to group the recommendations in dealing with them in this report.

*I. Size of Classes and the Needs of the Individual Child.*

Dealing with the size of classes (grades I to VIII) in 1912, the report states that, in all cases except grade II, the classes are too large, in most cases twenty-five per cent. too large. What has been done to rectify the condition? A study of the accompanying table will show that a very slight improvement has been made in this direction. Why? Because we have not room. The slight improvement which has been made was brought about by taking a room occupied and needed by the High School.

## A COMPARISON OF ENROLLMENT BY GRADES

(Omitting the Beechwood School)

MAY, 1912.

| Grade | I | II | III | IV | : | V | VI | VII | VIII | : | IX | X | XI | XII | XIII |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Pupils | 49 | 34 | 45 | 45 | : | 45 | 50 | 38 | 40 | : | 45 | 29 | 16 | 15 | 22 |

Total 473

DECEMBER, 1915

| Grade | I | II | III | IV | : | V | V-VI | VI-VII | VII-VIII | VIII-IX | : | IX | X | XI | XII | XIII |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Pupils | 50 | 43 | 38 | 49 | : | 39 | 31 | 40 | 35 | 39 | : | 33 | 30 | 20 | 20 | 17 |

Total 512.

At the outset, the class occupying this room was ungraded, and was made up by taking pupils from Grades IV, V, and VI, who for one reason or another were not suited to the grade in which they were then placed. The primary motive underlying such a move as this is to serve more fully the needs of the individual pupil. By this means, more individual work is possible, and the work can be more readily adjusted to the need and ability of the pupil. The secondary motive was to decrease the size of classes in the regular grades, thereby making more even gradation, and increasing the chances of keeping them evenly graded. This plan, while meeting with success, presented certain difficulties which could not be overlooked. In the first place, I think it will be freely admitted that it requires a superior teacher to handle a class of this type. She must have sound training and have a natural adaptability and liking for this sort of work. To obtain teachers of this type, although not impossible, proves extremely difficult. Ninety-nine per cent. prefer to do straight grade work. But the second and more formidable objection to which this plan is open is the reproach to which children are subjected who are placed in this class. What the underlying cause of this is I will not attempt to say. I have an idea that it would be true in any small community.

With these things in mind, and with no idea of departing from the primary motives of serving the needs of the individual pupil, the following plan was adopted. Grades V to VIII inclusive were organized on a departmental basis. The five rooms occupied by grades V, VI, VII, VIII, and the ungraded class were reorganized into classes, V, V and VI, VI, and VII, VII, and VIII, and VIII. Such a plan as this had the advantage of overcoming the first difficulty, *i. e.* providing excellent teachers for the ungraded pupils. It removed the objectionable ungraded class and also serves, as well if not better, the needs of individual pupils. Instead of segregating the pupils, those who need special help are listed and placed in those rooms where in the major portion of their work they meet the requirements of the grade.

The teachers working with this group of pupils are all especially well prepared in the subjects which they teach. They know the needs of every child in their subject, and are given a certain number of periods each day to work either with small groups or with

individual pupils, as conditions warrant. It has been found that the group of backward children is not a constant but a variable, *ie.* outside certain limits. To be more specific, the causes which create unfitness for the work of a certain grade are attributable to other factors than dullness. Absence for a long period often causes a child to become ungraded. To place such a child in his regular grade is not only a wrong to the child, but a burden to the teacher, and, unless special help is given, failure is sure to result. By the plan outlined above, this condition is obviated, and in course of time the child is brought back to a normal and true gradation.

In emphasizing the advantages of this plan, we make no boast that it is not beset with difficulties. Its greatest claim to credit is that it does away with the ungraded class, while at the same time it tries to meet in every way the needs of the individual pupil. This year an extra teacher was engaged to assist in the work in these grades. This has given more time for work with backward pupils.

In the lower grades departmental work is not feasible and, because of lack of room, conditions are far from satisfactory. Grades I, II, and IV, with 50, 43 and 49 pupils respectively, should be sufficient evidence to any one that more room is an urgent need. The one assistant, whom we have now, cannot extend her service beyond the second grade, and is obliged to work in a room which is positively unsuitable. If there were any space in the building where special help could be given (other than the halls), another assistant should be immediately engaged to assist in grades III and IV. Notwithstanding these facts, the progress in these grades in the last three years has been remarkable. The increased ability of the children of these grades in reading, arithmetic, oral and written expression has been obvious to all who have visited the schools during this period. In the Beechwood School, the same plan of work is carried on, as in the first three grades of the Osgood School, and progress in the fundamental subjects mentioned above has been very satisfactory.

### *II. Need of a Kindergarten.*

The report urged the formation of a regular kindergarten. At the time the report was made, May, 1912, this recommendation

was carefully considered by the School Committee and the Superintendent, and, while the need of such a school was admitted, yet, on account of the already crowded conditions of the Osgood School, it was obvious that such a move was impossible. With a new building for the upper grades, the recommendation should be immediately carried out.

*III. Reorganizing of the Work of the Upper Grades and High School.*

The report advised the elimination of the ninth grade, and a closer organization of the work of grades 7 and 8 with the High School. This same recommendation was made by the present Superintendent in an unpublished report to the Cohasset School Committee in January, 1912. It is in keeping with a movement which has had wide adoption throughout the country. The artificial line which we have been accustomed to draw, separating Grammar School from High School, was a result of the natural growth of our Public Schools. Before High Schools were an accepted part of the educational system, the completion of the Grammar School course marked the end of the Community's responsibility for the education of its children. Today, conditions are changed. Public education is admitted by every student of our country's history, and by every worker for its permanence and prosperity, to be the *sine qua non* of progress.

The carrying out of the recommendation was started with the beginning of the school year in 1913. First, the high school classes, usually designed 1st year, 2nd year, 3rd year, and 4th year or sometimes as Freshman, Sophomore, Junior, and Senior, were called 9th, 10th, 11th, and 12th grades, thus continuing the same designations as are used in the lower grades, Grammar school graduations were dispensed with, and the gradual reorganizations of work begun, so as to relate the 7th and 8th grades more closely to the upper grade classes, usually termed the high school classes. It will be apparent to anyone that the elimination of a 9th grade has, as its underlying motive, the shortening of the whole course by one year, for the equivalent of 9th grade work must be maintained, whether we class it 9th grade, 1st year High School, or Freshman work. It must also be apparent that a change of this kind must be gradual, and the final result obtained only when the

8th grade has reached that level of attainment formerly set for the 9th grade.

In this particular case, the change involved a general re-adjustment of all work from Grade VII to the end of the school course. For the purpose of this re-adjustment, a new curriculum for grades VII to XII inclusive was outlined, consisting of a College and Technical School preparatory course, a Commercial course, and Practical Arts courses for both boys and girls. The work of the practical arts departments begins with the 7th grade and, at the present time, extends through the 11th grade. By the addition of the services of another man to this department, it is hoped to make the course so complete that, in the last two years, it can be completely differentiated from the commercial course.

While real preparation for College is not begun until the 9th grade, conversational French and General Science are given in the 8th grade. In this way, an opportunity is given for studying the aptitude of boys and girls, which affords a better basis for counsel as to the line of work they should choose. To 8th grade pupils, the work of succeeding grades is carefully explained. Beginning with the 9th grade, the Commercial Course begins to differentiate. Intensive preparation for college or business is however put off until the last two years, thus affording greater flexibility in the work of the grades immediately preceding.

One very apparent result of this readjustment of courses in the upper grades has been the increase in attendance. During the last two years, the falling off in attendance in these grades through lack of interest has been almost negligible. At the present time, there are 120 pupils in the classes above the 8th grade. This in itself is proof of the fact that in past years many boys and girls have left school because the work was of such a character that they could not pursue it creditably, or they did not get those things which would be of material assistance in getting a start in life.

### *IV. The New Practical Arts Course*

The next recommendation dealt with the introduction of more practical work in upper grammar grades and high school.

I have already alluded to these courses in the discussion of the proceeding recommendation, and, in my two previous reports, I

have explained their significance in the education of today. I have also explained somewhat in detail the progress what has been made, since they were instituted in 1913.

Before these courses were introduced there were two alternatives for pupils pursuing courses in the High School—commercial work or work leading to college preparations. Anyone reflecting on conditions as they are in this country today, and considering the manifold activities into which our boys and girls must go on leaving school, must admit that our schools must offer a far broader training.

All pupils cannot, nor do they desire to go to college. All pupils cannot, nor are they fitted, by natural aptitude, to enter business. These are only two of the goals toward which school activities should be directed, and for which they should train. The world of industry, especially for boys, holds as many alluring prospects, as the two fields of work mentioned above, and, for the majority, a far broader opportunity. Underlying the work is a wealth of material for education, as cultural, as educative, as that which we have been accustomed to offer: English work, based on themes which deal with actualities; history, which emphasizes the importance of industry; geography, which shows activities in which men are engaged in all lands, especially the relation of industry to natural resources. Besides are the practical mathematics, mechanics, and mechanical drawing which are fundamental to all skilled trades.

Up to the present time, the practical arts work for boys has been confined almost wholly to shopwork in wood, with a very limited amount of mechanical drawing and theory. With the services of an additional instructor, the work mentioned above will be made possible, and we shall be able to give our boys every opportunity for developing their capabilities.

In the practical arts work for girls, such progress has been made as must seem commendable to those in sympathy with this type of work. To develop a well-rounded course, the services of another instructor should later be added to the department. As in the boys' department, the work is almost wholly practice, only a very little being given to that great body of practical knowledge, which should form a part of the training of every girl. The trial and failure route to education has, until recently, been the only availa-

ble one to the science of homemaking. When we realize the importance of the mother as a factor in the average American home, the influence she exerts for good or evil, it would seem that these courses stand second to none in importance.

### *V. The Re-Adjustment of Expenditures*

The final recommendations dealt with the re-adjustment of expenditures; first, as regards the amount of money paid for education in the grades, as contrasted with that of the High School; second, as regards expenditure per pupil preparing for College, as contrasted with those preparing for business; and finally, the type of teacher that should be engaged, the salaries to be paid, and the basis on which they should be paid.

The following table shows the amount of money which is being paid for High School and grade education as compared with that which obtained in May, 1913.

ANNUAL EXPENDITURE PER PUPIL FOR SCHOOL MAINTENANCE

| YEAR | GRADES | HIGH SCHOOL |
|---|---|---|
| 1912 | $32 17 | $89 01 |
| 1915 | 48 55 | 74 04 |

The average for the Metropolitan District in 1912 was $45.85 for grade instruction, and $70.75 for High School instruction.

While the report admitted that in a small High School, where higher salaries were paid to teachers than in the grades, and the group taught was much smaller, instruction necessarily cost more, yet it found no justification for the very wide difference which existed, and suggested an immediate re-adjustment.

A study of the table above shows that the cost of grade instruction has increased by $16.38 and the cost of High School instruction has decreased by $14.97; further, that the ratio of the cost of the two is practically the same, as the ratio of the averages for the district. The increase in each instance is due to the fact that the average is for the year 1912. Increased costs for instruction in other communities during the last two years would equal, if not exceed, the increase in Cohasset.

The result has not been obtained by decreasing the number of teachers in the High School, nor by lowering salaries. In fact, the High School section receives instruction in Practical Arts work

which was not true at the time of the report. A percentage of the salaries of these two teachers is charged to High School instruction. Again, salaries have been increased rather than lowered. Costs have been equalized by increasing the number of teachers in the grades, by securing teachers commanding larger salaries and by increasing the salaries of those remaining in the service. In the High School, costs have been lessened, first, by the fact that there are a larger number of pupils attending, and second, by means of internal adjustments.

The small college preparatory group, which in 1912 were receiving an amount, both in time and money, out of proportion to their numbers, are today being offered all the essentials of college preparations at a very much decreased cost.

The following comparison will show what has been done in equalizing cost :

| Year. | Number of Pupils. | Cost. | Cost per Pupil. |
|---|---|---|---|
| | | LATIN | |
| 1913 | 16 | $433 38 | $37 08 |
| 1915 | 14 | 280 00 | 17 50 |
| | | BOOKKEEPING | |
| 1913 | 51 | $320 00 | $6 27 |
| 1915 | 42 | 372 36 | 8 16 |
| | | FRENCH | |
| 1913 | 21 | $480 00 | $22 85 |
| 1915 | 47 | 571 36 | 12 16 |
| | | STENOGRAPHY | |
| 1913 | 24 | $266 66 | $11 11 |
| 1915 | 33 | 545 94 | 16 54 |

This result has been brought about by the association of small groups pursuing the same courses, and the offering of some subjects alternate years, such as physics and chemistry. Of course, the introduction of Practical Arts courses have been a factor in

that they have reduced the periods of work given to other subjects and, in the main, this has affected the Commercial group.

In keeping with the recommendations, the present Superintendent has given a great deal of time and care to the selection of teachers. No teacher has been appointed whose character has not been thoroughly investigated, and whose training and experience has not been commensurate with the work expected to be done.

The recommendation of the report urged the selection of teachers commanding salaries considerably higher than those which we are now paying. While this is good educational policy, and its spirit has been kept, yet an effort has been made to keep costs as low as possible, where it could be done without impairing efficiency.

## Conclusion of the Discussion of the Survey

The foregoing statements outline the basis of the work of the past two years and express the Superintendent's conclusion on the results of that work.

It may be of interest to some to know that Dr. Spaulding, at the invitation of the School Committee, visited the Cohasset Schools again about a year after he made his Survey. He expressed himself as, "much pleased with the progress that had been made in so short a time in working out the recommendation of his report."

Notwithstanding this, there may still be those who lack conviction. If this is so, I would respectfully suggest that another Survey be made of the schools by a competent and impartial authority. Surely it could do no harm, and, if incompetence was found, such a survey would provide an unquestionable basis for its elimination.

On the other hand, should the report of such a survey be favorable, it would prove a boon of untold value to the schools. If there is one thing that public schools need, not only here, but in every community, it is encouragement and support which sustains and upholds them in their work.

This is not an easy thing to obtain. It will never be spontaneous. It will be rather the result of concerted effort on the part of those individuals in a community who are sincerely interested in the work of their schools, because they recognize in them the most powerful agency existent in our public life, working for the develop-

ment of those qualities which mean a better citizenship, and permanence and prosperity to our democratic State.

## A Comparison of the Expenditures of the Past Three Years

As is shown in Table A, page 221, there has been a decided increase in the cost of school maintenance since 1913. There is no desire to conceal the fact. It is in keeping with recommendations outlined in Dr. Spaulding's report, and was expected by the School Committee, as then constituted.

The table shows that increase in cost of instruction is attributable to increase in salaries of teachers and cost of supplies. The cost for text books has been decreased. In 1912-13 and 1913-14, a great deal of effort was put on the selection of text books, suited to the new curriculum which we have been building. Expenditures during the present year have been normal. For supplies, the increased cost is almost wholly attributable to the new departments. Bills for materials for the cooking, sewing and shopwork are chargeable under their head. To offset this, there have been receipts from the School Lunch and from the Manual Training department—the boys paying for the cost of such raw materials as they use in making the articles which they take home.

## Table A

| | 1914-15. | 1913-14. | 1912-13. |
|---|---|---|---|
| **Administration** | | | |
| Superintendent—Salary and expenses of office | $996 11 | $1,060 75 | $925 19 |
| No. of pupils | 511 | 496 | 466 |
| Cost per pupil | $1 94 | $2 14 | $1 98 |
| **Instruction** | | | |
| Principal—Salary and expenses | $1,200 00 | $1,200 00 | $1,200 00 |
| Cost per pupil | 2 35 | 2 42 | 2 58 |
| Supervisors—Salary and expenses | 592 65 | 722 97 | 1,573 00 |
| Cost per pupil | 1 16 | 1 46 | 3 38 |
| Teachers—Salaries | 15,968 75 | 13,845 74 | 10,475 25 |
| Cost per pupil | 31 25 | 27 91 | 22 47 |
| Text books | 784 61 | 1,093 45 | 811 21 |
| Cost per pupil | 1 54 | 2 20 | 1 74 |
| Stationery supplies, etc. | 2,598 17 | 1,857 18 | 741 85 |
| Cost per pupil | 5 08 | 3 74 | 1 59 |
| **Operation of School Plant** | | | |
| Janitors' service, fuel, etc. | 3,010 68 | 3,105 40 | 2,671 21 |
| Cost per pupil | 5 89 | 6 26 | 5 73 |
| Maintenance—Repairs, etc. | 1,679 02 | 803 59 | 904 12 |
| Cost per pupil | 3 29 | 1 62 | 1 94 |
| **Auxiliary Agencies** | | | |
| Transportation, medical support, etc. | 5,130 72 | 4,253 38 | 3,806 56 |
| Cost per pupil | 10 04 | 8 57 | 8 16 |

## A Comparison of Per Pupil Cost for Administration and Teaching

In this connection, I wish to present two tables, showing the decrease in cost per pupil for services as Superintendent and Principal since 1893, and the increase cost per pupil for teachers' services.

### Table C

| Year | Amount Paid for Duties of Superintendent and Principal. | Number of Pupils | Cost per Pupil |
|---|---|---|---|
| 1893 . . | $2,065 | 386 | $5 35 |
| 1896 . . | 2,400 | 389 | 6 17 |
| 1899 . . | 2,300 | 401 | 5 73 |
| 1912 . . | 2,700 | 467 | 5 78 |
| 1915 . . | 2,000 | 511 | 3 91 |

### Table D

| Year | Amount Paid for Teachers' Salaries | Number of Pupils | Cost per Pupil |
|---|---|---|---|
| 1893 . . | $5,920 | 386 | $15 34 |
| 1896 . . | 6,680 | 389 | 17 18 |
| 1899 . . | 7,000 | 401 | 17 46 |
| 1912 . . | 12,000 | 467 | 25 69 |
| 1915 . . | 16,560 | 511 | 32 40 |

Surely, the present Superintendent cannot be charged with selfishness, for the increase in teachers' salaries has been most rapid during his administration. While, on the other hand, he has contributed services which formerly the Town was obliged to pay for. In every case, according to his judgment, the increase in teachers' salaries has been merited, and the schools have benefited by that increase in devotion to service which one feels when they receive substantial reward.

As regards the decrease in cost for duties of Superintendent and Principal, perhaps that has been equally merited. Whether this is true or not, surely it has not resulted in a lessening of his interest in the Cohasset Schools and the solution of the problem which was set before him.

## Conclusion.

In conclusion, I wish to acknowledge my appreciation of every act of the Committee, teachers, or citizens which have been based on the desire to broaden educational opportunities for the boys and girls of this community. It is for their benefit that schools are set up. It is for their advancement that we should all continually strive. We may err. That is human. But, while we keep before us these ideals of service, it is impossible for us to go far astray.

Respectfully submitted,

S. C. LARY,

*Superintendent of Schools.*

## REPORT OF THE SCHOOL PHYSICIAN

*To the School Committee and the Citizens of Cohasset:*

As school physician it has been my practice to watch the pupils at their work with the purpose of finding whether they are doing it under the best conditions of health. To remove any unfavorable or unsanitary conditions of the school houses has been the constant aim of the Committee and of myself. Much has been accomplished by the recent installation of new plumbing and the re-arrangement of the basement story of the Osgood school. Often, however, pupils are debilitated and unfit to profit by their studies because of faulty conditions in their homes. Improper diet, insufficient sleep too little fresh air and too many outside attractions are responsible from any of these drawbacks. When we consider that the pupil is in school only six hours daily and is under the supervision of the parents for the remaining eighteen hours, it is plain that the best

results can be obtained only by co-operation of the parents with the school authorities.

In order to ascertain the general health habits of our pupils, I have had the school nurse secure answers from each pupil in the Osgood school, to a set of questions, which I will now present. It is manifest that complete accuracy cannot be expected in reply to some of the questions and some answers which were not clear, have been excluded. Nevertheless, answered freely and in private, as they were, I believe they give a fair presentation of the general health conditions, under which the pupils live.

I will summarize the answers to the most important questions, in the hope that parents will give them careful thought and will endeavor to bring about improved conditions in the home environment and discipline of our pupils.

### Questions

1. How old are you?
2. In what grade are you?
3. Have you ever had any serious sickness? What was it?
4. What do you usually eat for breakfast?
   All the answers to this question included substantial and proper articles of diet, with the exception that one boy of 16 replied: "Nothing but cup of tea."
5. Do you eat breakfast every day?
   Yes, 366. No, 12.
6. Do you eat a noon meal every day?
   Yes, 378. No, 1.
7. Do you drink coffee?
   Yes, 186. No, 164. Seldom, 11. Amounts, 1 to 3 cups. Of those 10 years old and under—Yes, 67. No, 70. 5 children 10 years old and under drink 2 cups.
8. Do you drink tea?
   Yes, 156. No, 44. Seldom, 24. 10 years old and under—Yes, 69. No, 67. I greatly deplore such extensive use of tea and coffee by school children, especially the younger pupils.

Beside the injurious effect of the drink, it tends to limit the amount of nourishing food at the meal.

9. Do you have your bedroom window open or shut at night?
   Open, 227. Shut, 158. No wonder that some pupils are listless or inattentive after nights passed without proper ventilation!
10. Have you ever been to a dentist?
   Yes, 212. No, 167.
11. Do you own a tooth brush?
   Yes, 351. No, 28.
12. Do you use a tooth brush?
   Yes, 324. No, 37. Seldom, 21.
13. Does anyone else use your tooth brush?
   Yes, 24.
14. Do you sometimes have toothache?
   Yes, 211. No, 169.
15. Do you have headache often?
   Yes, 98. No, 242. Seldom, 4. The greater prevalence of toothache as compared with headache serves to emphasize the evil results of neglect of the teeth.
16. Can you read easily what is written on the blackboard?
   Yes, 349. No, 23.
17. Does the print blur in your book?
   Yes, 59. No, 187.
18. Do you often see double?
   Yes, 50. No, 274. Those who have difficulty with vision are mainly between the ages of 9 and 15.
19. Do you often have earache?
   Yes, 80. No, 298.
20. Do your ears ever run?
   Yes, 20. No, 352.
21. Can you hear easily what the teacher says?
   Yes, 358. No, 12. Sometimes, 6.
22. Is it hard for you to breathe through your nose?
   Yes, 36. No, 314. Sometimes, 7.

23. Do you have sore throat often?
    Yes, 31. No, 289.
24. Do you tire easily in school?
    Yes, 79. No, 265.
25. Do you work any out of school hours?
    Yes, 277. No, 99.
26. What kind of work?
    Home studies, 74; indoor, 122; outdoor, 91: none, 27; messenger, 1; janitor, 1.
27. How much?
    20 minutes, 1; half hour, 127; 1 hour, 87; 1½ hours, 9; 2 hours, 17; 2½ hours, 4; 3 hours, 1; all Saturday, 1.
28. At what time do you go to bed?
    At 7 or earlier, 34; between 7 and 9, 252; 9 to 10, 80; between 10 and 11, 19: 8 to 12, 4; "any time," 1; one boy of 16, "between 10:30 and midnight." Two children of 7, 9 o'clock; 1 child of 8, 10 o'clock. One child of 11, 10 to 11 o'clock.
29. At what time do you get up?
    At 7 or earlier, 42; 7 to 8, 212; 8 to 9, 8.
    These figures under questions 28 and 29 are probably only approximate, but no subject is more worthy of attention by the parent than that of securing abundant sleep for growing children.
30. Do you eat candy every day?
    Yes, 82. No, 295.
31. How often do you bathe?
    Daily, 8; three times a week, 8; twice a week, 54; once a week, 274; every two weeks, 14; monthly, 6; yearly, 2; irregularly, 1; "none" 1.
32. Do you often take cold? Answers not complete enough for tabulation.

---

The only epidemic during the year was one of whooping cough in December. The symptoms of many of these cases were obscure at the beginning. This fact, together with failure of many parents to have medical advice at any part of the disease, greatly increased

the extent of the epidemic. Any child with a bad cough and no treatment is exposed to unnecessary risk and also (if the disease be contagious), is exposing the community to infection.

I wish to express my thanks to the Committee for their support and co-operation, and to the Superintendent and Teachers for directly facilitating my work, I also am much indebted to the School Nurse for her earnest and efficient collaboration, all of which I gratefully acknowledge.

Respectfully submitted,

OLIVER H. HOWE, M. D.

COHASSET, Jan. 29, 1916. *School Physician*

---

## REPORT OF SUPERVISOR OF MUSIC

MR. STANLEY C. LARY,

*Superintendent of Schools.*

Dear Sir:

In submitting to you my report for the past year upon the musical instruction in the Osgood School, I find little to remark that is new.

The plan in use is proving its worth by the constant upward trend of the work throughout the entire school. From the very first grade, the endeavor is made to teach the real meaning of music, not alone its appeal through the pleasure of singing, or listening to singing, but its intellectual side as well, and the response that is made shows the success of this plan.

More music in the same allowance of time, more difficult music than previously used, and better marks in the tests given, indicate that the work is progressing in the right direction.

There is no lack of interest on the part of pupils, needed supplies are promptly furnished, and there exists entire co-operation between teaches and supervisor.

Yours respectfully,

KATHERINE D. STEVENS.

## REPORT OF THE SUPERVISOR OF DRAWING.

COHASSET, MASSACHUSETTS

MR. STANLEY C. LARY,
*Superintendent of Schools.*

DEAR SIR:

I submit for your consideration and approval my second Annual Report.

The work in the Drawing Department, as briefly outlined in last year's report, has been carried on with encouraging results. The exhibition of drawing which was displayed in the Bates Building in June constituted a brief review of the work of the school year. An encouraging growth of interest on the part of the pupils has been a real inspiration to me and a vital factor in the accomplishment of better results. Facts about things are being stowed away in the minds of the children and busy fingers are acquiring the ability to give expression to these facts and to ideas which they suggest.

Interesting problems in design are being worked out for use in the Manual Training Department.

The completion of our new studio will be much appreciated by the girls of the High School, for they have been handicapped by the lack of a suitable place for carrying on the work. In spite of the difficulties we are getting good results.

I am able to make regular visits to the Beechwood School. The little folks there are doing excellent work.

In conclusion, I wish to thank you for your encouraging support and for the spirit of appreciation which you have shown toward the work of my department.

Respectfully submitted,

FLORENCE E. KRAUS,
*Supervisor of Drawing.*

# APPENDIX TO SUPERINTENDENT'S REPORT

## A New School Building.

With the consent of the School Committee, I am submitting a sketch, with floor plans, of a proposed new building.

### The Type of Building Which Should Be Erected

The sketch submitted illustrates the type of building which has had almost universal adoption, wherever new school construction has been undertaken in recent years. Such a building permits extreme simplicity, without ugliness, or, if desired, can be made very ornamental and, at the same time, the skeleton remain the same. The rooms are square, permitting the use of all space inside the building. All stairways lead to the side of the building, not toward the centre.

The material used in construction varies, but the tendency is to avoid wood whenever possible. Fire-proof construction is costly, yet, where the elements of safety and permanence are considered, its merit seems to warrant the increased cost.

### The Things for Which Provision Should Be Made

The floor plans submitted, while only tentative, suggest the needs for which a new building should provide. On the ground floor should be the gymnasium, the lockers, and shower baths; also the rooms for the various needs of the Practical Arts work for boys. The heating plant should be housed in a small building outside the main building. The second floor should contain an auditorium and classrooms. Provisions should also be made for the school physician and school nurse. The second floor should provide for the needs of the Practical Arts department for girls. There should be a laundry, kitchen, model dining room, and model suite, also room for the sewing, and the lunch room. On this floor also should be the rooms of the Commercial department.

Somewhere on the first or second floor, provision should be made for a library which should also serve as a study room.

Proposed Building for Upper Grades

## The Need of a New Building

In my report for the school years 1914-1915, I discussed in detail the need of a new building. This need is the result of two factors, increased attendance and extension of school activities. There is no doubt in the minds of those in touch with the conditions in our schools, that the following statements are true:

1. The grades are overcrowded. Thirty-five pupils should be the maximum allowed in any one grade. Reference to the table on Page 211 will show that we are far from these conditions and that the situation is particularly bad in grades I, II and IV.

2. The High School department has not sufficient room, and much of what they have is not suited to its needs.

3. The Manual Training department needs more room. Its present quarters are ill adapted to its work. The department is growing, and rightly so, but to get satisfying results, more room is an immediate need.

4. There is an unquestionable need of a gymnasium. Schools today should provide means for attending to the physical training of their pupils as well as for their mental training. Both are important and are supplementary; one should not exist without the other.

## Should the Town Provide a New Building.

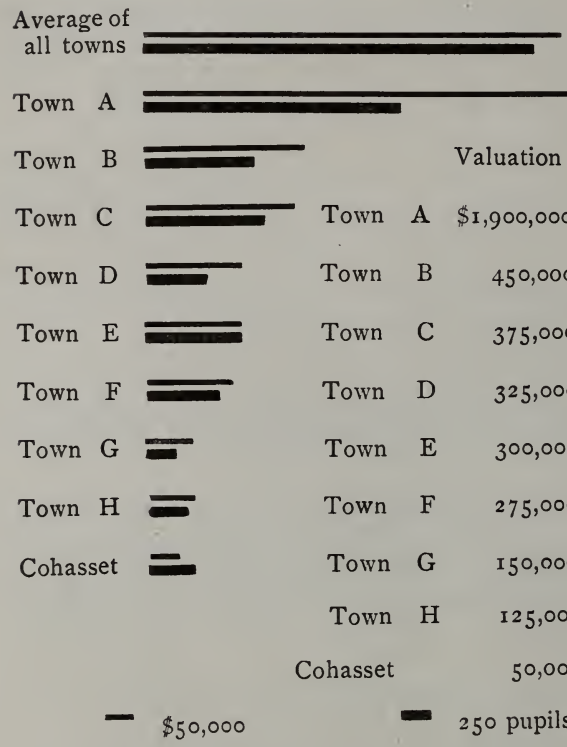
If it admits the validity of the arguments brought forth in previous reports and summarized again in this report, then the answer must be "yes."

## Will it be Doing More for its Children Than other Communities Similarly Situated?

A study of the chart will show that as regards the amount of money invested in school property, compared to the number of pupils being educated, Cohasset can add materially to the value of its school plant, and yet be doing no more than other communities similarly situated.

## Chart A

Showing relation of valuation of School Property to number of pupils in Schools in nine towns near Boston:



| | Valuation | No. of Pupils |
|---|---|---|
| Town A | $1,900,000 | 4,500 |
| Town B | 450,000 | 1,500 |
| Town C | 375,000 | 1,750 |
| Town D | 325,000 | 1,000 |
| Town E | 300,000 | 1,500 |
| Town F | 275,000 | 1,250 |
| Town G | 150,000 | 500 |
| Town H | 125,000 | 500 |
| Cohasset | 50,000 | 525 |

# PRESENTATION OF FLAG STAFF ON COMMON IN MEMORY OF GEORGE G. CROCKER

## Speech of Courtenay Crocker

*on July 5, 1915, * presenting in behalf of his family to the Town of Cohasset a flag staff in memory of George G. Crocker who died May 26, 1913.*

We have come together today to dedicate this flag staff which is to be used to fly the flag of the United States. That flag has come down to us from our fathers honored and respected not only by the citizens of the United States but by the people of every nation of the world and it is for us to see that we leave it to our children honored and respected.

It is said that a few years ago four messengers were sent to this world from the planet Mars to find out the chief causes here of good and ill. The messengers came invisible through the ether, landed on our globe and travelled round the world, two to the East and two to the West. The two who went west returned to Mars and reported that the greatest causes of evil in the world were patriotism and religion and the two who went to the East returned and reported that the greatest causes of good in the world were patriotism and religion. Patriotism may be an unselfish desire to make one's country noble and strong so that it can lead in securing the blessings of life not only for its own citizens but also for the citizens of other countries but all too often it is a mere selfish desire to get all one can for one's own country.

In the early days if a man was loyal to his tribe, his family, or his State it was thought that he had done all that was required of him and the results were tribal wars, family feuds and friction between States. Later in this country men of wider vision urged the need of loyalty not only to one's own State but to other States and there was brought about a union of States which has resulted in untold blessings for our people. But that union of States was

* As July 4th fell upon Sunday, Independence Day was celebrated on the 5th.

Flag Staff Dedicated on Cohasset Common, July 5, 191

merely a step along the road of progress and today, in the great war that is going on, we can see all too clearly on the world's stage the dangers of selfish loyalty to one's own country.

In behalf of my family I now present this flag staff to the Town of Cohasset. From it will wave the flag of the United States and as we gaze on that symbol of our patriotism and are reminded of our duty to our country, let us not allow ourselves to forget the need of unselfish loyalty and devotion to all the peoples of the world.

---

### Speech of Acceptance by Harry E. Mapes, Chairman of the Board of Selectmen

Mr. Crocker: Many honors and pleasant duties fall to the lot of the Chairman of the Board of Selectmen of a Town, and today, by virtue of that office, it is my pleasant duty and a great honor to receive from you, and accept in behalf of the Citizens of the Town of Cohasset, this beautiful gift by your family, in memory of one who for many years enjoyed the esteem and respect of the citizens of the Town, and one whose loyalty and devotion to public duty has not only reflected great credit and honor to himself, his family and his Town, but to the Commonwealth of Massachusetts and the Nation, and has left with us who knew him the mark of the ideal American citizen.

This beautiful staff and the spot which you have chosen for its location on the Common embellishes an already beautiful spot in the Town, and when the flag of all flags floats from its peak, the State and the Church, or as you have said, patriotism and religion, will be very appropriately portrayed to all visitors, whether they come from the planet Mars or our own sphere.

And now, sir, in behalf of the Town of Cohasset, I do accept and take this staff into the custody of the Selectmen, who will care for and maintain it and hand it over to their successors in office.

It is a further honor to me to extend to you or the family the privilege of first raising the Stars and Stripes to its proper place on the staff, where it will always float as an emblem of freedom and prosperity, and we sincerely hope, of eternal peace.

---

After the flag had been raised by George G. Crocker, 3d, and saluted and cheered, Mr. Mapes proceeded:

I would like very much to have one of our citizens say a few words on this occasion, and it gives me pleasure to call on Dr. Oliver H. Howe.

---

### Address of Dr. Oliver H. Howe

*Mr. Chairman, Fellow Citizens, Ladies and Gentlemen :—*

It is with pleasure that we assemble to receive and to dedicate this splendid flagstaff. Placed at the entrance to our town, where it can be seen from every approach and from the ocean, it will bear witness to our civic patriotism. Love of country is one of the noblest sentiments of the human mind and its emblem cannot be too constantly before us.

This flag will float above us in times of national festivity and exultation and likewise during public anxiety and danger. It will remind us of our honorable history and will inspire us with the feeling of self-sacrifice and devotion.

The eagle upon the top of the staff faces our old meeting-house, which is typical of the early colonial struggle of Cohasset and was where the early town meetings were held. The meeting-house, older than the stars and stripes, faces the flag of a country, which by vigorous growth, has become glorious beyond belief.

This flagstaff is also a memorial of a distinguished citizen of Cohasset, who always had a deep interest and pride in the affairs of our town—a man of sterling character and lofty attainments. Holding important positions of trust in the Commonwealth and the city of Boston, he devoted his life to the public good.

Knowing Mr. Crocker as I did, I cannot conceive of any memorial more fitting to express and to perpetuate the genuine worth and patriotism of his life. As a citizen, I wish to express my gratitude to the family of Mr. Crocker for their generosity in giving to the town this noble flagstaff. Bearing the flag aloft, it will ever stand as the symbol of freedom, which we value more than life itself and will constantly remind us of our glorious country and its mission among the nations of the earth.

May it also urge upon us the need of public spirit and of high ideals of duty to our government. By such ideals alone can we fulfill the purpose and the destiny of our great republic.

The Declaration of Independence was then read by Mr. Philander Bates.
